

# 2,5" WORM

## Submersible screw pumps

The 2.5" submersible screw pumps have a diameter of 63.5 mm and are suitable for wells and boreholes with a minimum diameter of 70 mm. The pumps can be used for pumping clean water without solid particles, for example for irrigation, transfer pumping, and the construction of domestic booster sets.

### Construction characteristics

- pump body made of stainless steel
- stainless steel screw spindle
- mechanical seal

### Motor

- power supply 230 V
- connection cable available in 20, 30, 40, and 50 m lengths
- oil-filled motor cooled by the pumped liquid
- protection IP68
- insulation class B
- speed 2850 rpm

### Usage

- type of liquid: clean water without solid particles or abrasive material
- max. liquid temperature: 35 °C
- max. immersion depth: 50 m
- minimum borehole diameter: 70 mm

### Applications

- pumping water from boreholes, wells, and sumps
- construction of domestic water supply systems
- irrigation

### Technical parameters

Pump	2,5" WORM 35/100
Power supply	230 V/50 Hz
Motor power input	550 W
Max. flow rate (Q max)	1800 l/h
Max. head (H max)	100 m
Ingress protection	IP68
Max. liquid temperature	35 °C
Cable length	20, 30, 40 or 50 m
Diameter	63.5 mm
Length	765 mm
Connection DN	1"
Weight	12 kg
