

Self-priming PGA series pumps are designed for pumping diesel, oil and glycol.

### Construction characteristic

---

- cast iron pump body
- aluminium motor base
- Stainless steel shaft
- plastic lamellas
- a mechanical seal made of graphite and a counterflange made of ceramics
- built-in BY PASS
- telescopic rod
- flexicable
- switch
- discharge hose with fuel gun

### Motor

---

- closed, chilled outside
- degree of protection IP 44
- insulation class F
- built-in capacitor
- thermal protection in the motor winding
- speed 2800 rpm

### Usage

---

- pumping of diesel, oil and glycol without solid additives and abrasives
- max. operating temperature 50°C

<b>Type:</b>	229/T
<b>Power input:</b>	370 W
<b>Q max:</b>	3600 l/h
<b>Head hight:</b>	17 m
<b>Voltage:</b>	230 V
